

MODULE

PROGRESS

<div><div>Intro to Academy</div></div>	<div>Introduction to Academy</div> <div>8 SectionsFundamentalGeneral</div> <div>This module is recommended for new users. It allows users to become acquainted with the platform and the learning process.</div>	<div>100% Completed</div> <div></div>
<div><div>Linux Fundamentals</div></div>	<div>Linux Fundamentals</div> <div>18 SectionsFundamentalGeneral</div> <div>This module covers the fundamentals required to work comfortably with the Linux operating system and shell.</div>	<div>100% Completed</div> <div></div>
<div><div>Windows Fundamentals</div></div>	<div>Windows Fundamentals</div> <div>14 SectionsFundamentalGeneral</div> <div>This module covers the fundamentals required to work comfortably with the Windows operating system.</div>	<div>100% Completed</div> <div></div>
<div><div>Introduction to Networking</div></div>	<div>Introduction to Networking</div> <div>12 SectionsFundamentalGeneral</div> <div>As an information security professional, a firm grasp of networking fundamentals and the required components is necessary. Without a strong foundation in networking, it will be tough to progress in any area of information security. Understanding how a network is structured and how the communication between the individual hosts and servers takes place using the various protocols allows us to understand the entire network structure and its network traffic in detail and how different communication standards are handled. This knowledge is essential to create our tools and to interact with the protocols.</div>	<div>100% Completed</div> <div></div>
<div><div>Network Enumeration with Nmap</div></div>	<div>Network Enumeration with Nmap</div> <div>12 SectionsEasyOffensive</div> <div>Nmap is one of the most used networking mapping and discovery tools because of its accurate results and efficiency. The tool is widely used by both offensive and defensive security practitioners. This module covers fundamentals that will be needed to use the Nmap tool for performing effective network enumeration.</div>	<div>100% Completed</div> <div></div>
<div><div>Learning Process</div></div>	<div>Learning Process</div> <div>12 SectionsFundamentalGeneral</div> <div>The learning process is one of the essential and most important components that is often overlooked. This module does not teach you techniques to learn but describes the process of learning adapted to the field of information security. You will learn to understand how and when we learn best and increase and improve your learning efficiency greatly.</div>	<div>100% Completed</div> <div></div>
